Hinman[®]

WHERE TEAMWORK MEETS SUCCESS

ATLANTA, GA | MARCH 19-21, 2020

108th Thomas P. Hinman Dental Meeting

Georgia World Congress Center & Omni Hotel at CNN Center
Dr. Robert J. O'Donnell, General Chair 🍀 Dr. J. Sedgie Newsom, President

A laptop is open on a wooden desk, flanked by two stacks of old, worn books. The laptop screen displays a message. The background is a blurred library or bookstore with tall bookshelves filled with books.

Thank You for Supporting a Dental Meeting that Supports the Dental Community.

A non-profit organization, the Hinman Dental Meeting provides scholarships to dental, hygiene, assisting and laboratory technician students and gifts to institutions that foster dental education. The focus has always been about providing the very best education possible for the entire dental team.

Come Home to Hinman this March to support a Meeting that supports the future of the dental profession...and make lasting memories along the way!

The 2020 Program Team Invites You to Come Home to Hinman!

Did you know that the Hinman Program Team starts working on the program three years in advance of Hinman? Program Chairs, Dr. William Rousseau and Dr. Jane Puskas, are pictured here with General Chair, Dr. Bob O'Donnell. They have been traveling around the country for the last three years scouting the best speakers in the industry to bring to the Meeting. They have spent countless hours working behind the scenes on this Pre-Registration Brochure.

We all appreciate their contributions for a successful meeting!

#MYHINMAN

WHAT'S YOUR HINMAN STORY?

#MYHINMAN

Visit [Hinman.org/video](https://hinman.org/video) to view and share our Hinman Homecoming welcome video with your friends!

TELL US YOUR "HINMAN STORY" AND YOU COULD WIN \$100!

We'll randomly pick one winner each month through March so the more you post on social media with the official hashtag [#myhinman](https://twitter.com/myhinman) the more times you are entered to win!

NOT SURE WHAT TO POST?

- Invite your friends from school to meet you at Hinman for a reunion.
- Spread the word about your school's planned reception (see page 68).
- Let your followers know when you've registered for the Meeting.
- Tell us about a product you discovered on our Exhibit Hall.
- Hinman Scholar? Post a photo from the day you received the scholarship.
- The possibilities are endless! We can't wait to see what you come up with!

We'll donate to a scholarship bank each time the hashtag is used.
Visit [Hinman.org/myhinman](https://hinman.org/myhinman) to vote for your school to receive one of the three scholarships!

#MYHINMAN

General Information

Course Schedule

Plan to stop by the Total Health Pavilion in the Exhibit Hall to hear these seminars related to nutrition and health. Earn one hour of CE for each hour of attendance. You must register for these seminars during the pre-registration process or onsite. Attendees must have these seminars listed on their course summaries to enter the pavilion before the start of each course.

Courses will be held near Booth 1553.

Thursday, March 19		Friday, March 20	Saturday, March 21
10 – 11 a.m.		Ms. Carole Helms Fr554 Diabetes 101	Dr. John Puskas Sa559 Don't Break Your Heart
11 a.m. – 12 p.m.		 Mr. Brian Bullman Fr555 Bringing Balance Through Hemp	Dr. Wayne Kerr Sa560 Stuff Worth Knowin' About Money, Practice and Life
1 – 2 p.m.	Dr. Ellen Daley Th550 HPV and Oropharyngeal Cancer: An Update on an Emerging Dental and Public Health Issue	Dr. Ellen Daley Fr556 HPV and Oropharyngeal Cancer: An Update on an Emerging Dental and Public Health Issue	
2 – 3 p.m.	 Mr. Brian Bullman Th551 Bringing Balance Through Hemp	Dr. Todd Eldredge Fr557 Cardiovascular Disease, Inflammation and the Oral-Systemic Connection: Methods to Assess, Detect and Prevent Disease

SATURDAY

New this year! The Hinman Podcast Lounge

Booth 757

Listen in, subscribe and chat with the hosts while they record their episodes. Recharge your device and regroup after a busy day at the Meeting in this comfortable lounge. Be sure to bring your device charger to plug in, then sit back and take a break while you listen in to these popular dental podcasters:

GET THE HINMAN APP!

Manage your registration account on the go and access these features in real time:

- ✓ Course Room Locations
- ✓ Exhibitor Lists, Floor Plans & Show Specials
- ✓ Maps of the GWCC & Omni
- ✓ CE Verification (avoid the lines and email certificates to print from home)
- ✓ Add Courses & Special Events Onsite

New this year, “opt in” to making your profile visible the first time you log in to the App so friends and colleagues can see that you are attending. What better way to reconnect with old friends?

Did You Know?

Registration Hours

Wednesday, March 18: 1 – 5 p.m.
 Thursday, March 19: 7:30 a.m. – 5 p.m.
 Friday, March 20: 7:30 a.m. – 5 p.m.
 Saturday, March 21: 7:30 a.m. – 4 p.m.

GWCC Parking Information

Red Deck, Yellow Lot and Blue Lot
\$11.20 (includes service fee) **in advance**
\$20 at the gate

Visit gwcc.clickandpark.com/events to reserve a parking space.
 Use code **HIN2020** to determine which lots are available.

Exhibit Hall Hours

Visit the Hall for Exhibits, Education, CE Printing* and Food
 Thursday, March 19: 9:30 a.m. – 5 p.m.
 Friday, March 20: 9:30 a.m. – 6 p.m.
 Saturday, March 21: 9:30 a.m. – 3 p.m.

* Computerized continuing education certificates can be printed during these hours.
 There will be an additional CE printing station available on Saturday from 1 – 5 p.m. in Registration.

Food Options

While in the Exhibit Hall, you can visit Papa John's, Chick-Fil-A, Pita Hut, Subway, JD's Barbecue as well as many different Grab and Go outlets for a sandwich or salad. Southern Roots, across from Registration, will be open each day so stop by for your favorite coffee, tea or latte.

Hinman's Night Out At The Tabernacle

Join us on Friday night for a party that is going to rock!
 Tickets are \$50. Students and residents pay \$25.
 Tickets must be purchased in advance.

Welcome to Hinman

The members of our Hinman Information Committee are ready to answer your questions when you arrive at the Georgia World Congress and Omni Hotel. This committee is made up of dentist volunteers of the Hinman Dental Society. They distribute lanyards, direct you to your course rooms and/or registration and answer other meeting-related questions you might have. New this year: Hinman members will be at the GWCC doors to greet you each morning. Look for Hinman Information Committee Chairs, Dr. Ken Berger, Dr. Lauren Bowersox and Dr. Jeremy Ward, when you are at the Meeting!

NEW location for Hinman's Signature Party
 We can't wait to show you the Tabernacle.

THREE-DAY COURSE

3
DAY COURSE

21 HOURS

Dr. Gigi Meinecke

Th100 8 a.m. – 5 p.m. (one hour lunch break)

Continues on Friday from 8 a.m. – 5 p.m., Saturday 8 a.m. – 1 p.m.

D A | Fee: \$3,995

Staff: \$270 (Course Th100A) must register with a dentist

Botox and Dermal Filler Training with Cadaver Anatomy Review Workshop

Covering more areas than any other injectable training, FACES offers the only course that includes a cadaver anatomy workshop and live patient training. The program covers nearly all cosmetic indications for Botox® plus masseter and temporalis, in addition to the most commonly requested areas for dermal fillers in the lower face. This course prepares attendees to safely and confidently treat patients and begin building their injectable practice.

Note: Per Georgia State Law, only Georgia licensees are allowed to inject patients. Injectors provide their own patient models. Each injector may inject one Botox® patient and one dermal filler patient.

Note: Course is approved by the Georgia Board of Dentistry.

Note: Attendees are required to bring a camera suitable for patient photo documentation and are encouraged to bring readers, loupes and headlamps.

Dr. Gigi Meinecke

Th101 8 a.m. – 12 p.m.

D A | Fee: Dentists \$585

Botox Refresher Course

Already completed a Botox course, but feel you would benefit from a “refresh”? Did you attend a course a while ago and feel the need for updates in this constantly evolving field? Or perhaps you completed training and still don't feel confident? All dedicated practitioners know that updates and reviews are critical. Join us for this comprehensive four-hour didactic class with cadaver anatomy review and bring your knowledge and skills up to date.

REQUIRED: To enroll in this refresher course, you must have completed at least six hours of a foundation Botox/dermal filler course. The refresher course will only cover theory, does not include a hands-on treatment component and is therefore not a certification course. **Proof of completion*** of a foundational course that included live patient injections is required for enrollment.

***Please note: Proof of completion includes a scanned certificate of completion or CE credit printout from an approved PACE, CERP or CME provider.**

Invisalign Fundamentals

Th102 8 a.m. – 12 p.m.

Th103 1 – 5 p.m. (Repeat)

D A | Fee: \$2,995

Staff: \$49 after complimentary allotment of four, please use Th102AA (8 a.m. – 12 p.m.) or use Th103AA (1 – 5 p.m.) to register

This is an introductory course for new Invisalign GP providers and their teams comprised of lecture/clinical education for the doctor and lecture/participation training for team members. This course provides participants with the clinical and operational education necessary to begin treating a broad range of Invisalign patients. At the conclusion of the program the participants will understand how to identify ideal case types for Invisalign treatments, integrate all aspects of the Invisalign process into the practice and use the software that depicts a virtual set up of your patient's planned treatment.

Cardiopulmonary Resuscitation Re-Certification (CPR)

Th104 8 – 11 a.m.

Th105 12 – 3 p.m. (Repeat)

ALL ATTENDEES | Fee: \$85

The American Heart Association (AHA) has issued revisions concerning the standards and techniques for CPR re-certification. Everyone previously trained in CPR now needs to know the new methods. This course is designed for those needing CPR re-certification. It is not for someone learning CPR for the first time. It will include a written exam and hands-on practice. You must have had CPR training within the past three years. Successful completion of each testing station and the written exam is necessary to satisfy license requirements. An online study guide is made available to those attendees who pre-register. Participants should review this material prior to arrival.

Note: Certification is valid for two years.

Dr. David Clark

Th106 8 – 11 a.m.

Th107 12 – 3 p.m. (Repeat)

D H A | Fee: \$425

Better, Faster, Prettier Composites

Experience a unique hands-on approach to modern resin dentistry. Direct composites are under appreciated in today's world of implants and computer-assisted ceramics. Yet composite can be the least invasive, most natural and most wonderfully esthetic of all restorations. Participants will perform injection molding to create ideal margins, rounded emergence profiles and mirror-smooth restorations in critical challenging situations: deep anterior caries and black triangles. Participants will learn to use heated composite with special step-down tips.

Note: Participants are encouraged to bring loupes to the course.

Participation Courses

*Participation course attendance is limited and is based upon instructor guidelines.
Supporting professionals are provided to ensure adequate interchange between instructors and participants.*

Dr. Lori Trost
Th108 9 a.m. – 12 p.m.
H A | Fee: \$250

Retain and Protect: Fabricate Useful Appliances for Everyday Practice
Welcome to the world of plastics! This program will grow the understanding of specific plastics and how they can be implemented for a variety of dental treatments. From clear aligner fabrication for retention, basic occlusal protection for para-functional habits, to custom sports mouthguards. Attendees will learn step-by-step instructions on how to master the fabrication and delivery of all these appliances by use of a thermoforming machine.

Preventive Equipment Maintenance
Th109 9:30 a.m. – 12:30 p.m.
Th110 1:30 – 4:30 p.m. [Repeat]
Repeated on Friday [Fr135 and Fr136]
ALL ATTENDEES | Fee: \$95

Service technicians from local dental supply companies will cover basic preventive maintenance and safety requirements for dental office equipment. Participants will learn how to maintain air compressors, vacuum systems, autoclaves, cavitrons, prophylaxis jets, handpieces, digital sensors and computer networks. The presentation will also address how to change o-rings in a leaking air/water syringe and solve many other maintenance issues that crop up in every dental office.

Dr. Gregory Folse
Th111 12 – 3 p.m.
Repeated on Friday [Fr132]
D LT ST | Fee: \$315

Difficult Denture Patients: Real-World Solutions Hands-On Workshop
This participatory course provides hands-on experience with modified impression and border-molding techniques, highly efficient and precise occlusal rim procedures (5-10 minutes chair time) and formulation of patient-specific occlusal schemes. Once applied, these unique treatment techniques will decrease treatment and chair time, decrease adjustment rates and increase denture success in your practice.

Note: Course Th205 is a prerequisite for this course.

Ms. Renee Graham
Th112 12 – 3 p.m.
Repeated on Friday [Fr123]
D H A | Fee: \$195

A Radiology Portfolio: Techniques for Success

Advances in technology have made a significant impact on the field of dental radiography. For dental practices to make a smooth transition to new technology, an understanding of the basic principles of intraoral radiography and the modifications to these principles required by new technology is beneficial. This course provides dental professionals with techniques to use with their current technology, analog or digital, to produce quality diagnostic images on the first exposure.

Note: Attendees are welcome to bring any radiographs (without patient names) to discuss.

 **Dr. Amy Kuhmichel**
Th113 12 – 3 p.m.
Repeated on Friday [Fr141]
Repeated on Saturday [Sa149]
D | Fee: \$395

Hands-On Oral Surgery Workshop

This hands-on course will give participants the chance to broaden their scope of practice by making oral surgery enjoyable and predictable. Fresh pig mandibles will be used for soft tissue surgery and suturing. Training will include the proper use of cowhorn and ash forceps and rongeurs for extractions. Additionally, alveoplasty and root-removal techniques will be discussed.

Dr. Mark Murphy
Th114 12 – 3 p.m.
Repeated on Friday [Fr125]
D A ST | Fee: \$350

Applications in Treating Sleep Apnea in Your Practice: Hands-On Workshop

Exciting options for effective treatment of sleep apnea include dental appliances. This hands-on course will familiarize the participant with appliance selection, impression taking, various bite registrations, temporary devices, pulse oximetry, sleep tests and more. The workshop will discuss current software utilization, communication with physicians and applied medical billing solutions.

Note: Course Th208 is a prerequisite for this course.

Dr. Lee Silverstein
Th115 12 – 3 p.m.
ALL ATTENDEES | Fee: \$425

How to Perform the Restorative Procedure to Deliver the Tooth-in-a-Day Prostheses

This hands-on course will go through the steps and detail the materials the restorative team will need and use to deliver the tooth in a day cases. Instruction will include details from the pick-up impression immediately following implant placement and suturing to the delivering of the final prostheses later that day. The patient post op care and a discussion about occlusion will also be presented.

Note: Course Th209 is recommended prior to attending this course.

Dr. Mario Romero
Th116 12:30 – 3:30 p.m.
D ST | Fee: \$395

The Bonded Functional Esthetic Prototype Hands-On Workshop

This hands-on course will provide a step by step guide on the laboratory and clinical aspect of the Bonded Functional Esthetic Prototype (BFEP). Upon completion of this hands-on course, the participant will understand when and how much tooth reduction is really needed. Participants will also become familiar with the BFEP concept and will implement the BFEP technique into everyday practice.

Note: Participants need to bring loupes.

Note: Course Th306 is recommended prior to attending this course.

Ms. Judy Bendit
Th117 1 – 2:30 p.m.
D H | Fee: \$95

Black Is Back: How Technology Is Changing Delivery of Care for High-Risk Patients in the Dental Office

This program focuses on the innovations and advancements in remineralization products and technologies that will influence and change the delivery of care we provide to our patients tomorrow. We will focus on Silver Diamine Fluoride and how it can be used for high-risk patients. So let's pave the way to a caries free practice, because black is back.

8 – 9:30 a.m.

Ms. Lois Banta

Playing the Insurance and Accounts Receivables Game Your Way

Is your office desk sagging from the weight of your insurance claims report? Accounts receivables out of control? Institute proven systems to effectively track A/R, follow up on past-due claims more efficiently and minimize your stress level. Design systems of collecting from patients and eliminate the ‘bad guy’ perception.

9:30 – 11 a.m.

Mr. Larry Guzzardo

Banish Broken Appointments: Eliminate Cancellations and Last-Minute Changes

Broken and canceled appointments are an expensive drain on your practice. Stop losing money, wasting time spent changing appointments, and the frustration created by “filling holes.” Learning to overcome this handicap you’ll enjoy less stress and everyone will have more fun! Attendees will learn how to: develop verbal skills to keep patients from making last-minute changes and cancellations; prevent no-show appointments and determine the real cause of broken appointments and educate patients to respect their ‘reserved’ time and re-educate existing patients.

Lunch is on your own from 11 a.m. to 12 p.m.

Note: Attendees will receive a \$10 food and beverage voucher when arriving at the course, courtesy of Hinman Housing Powered by Eventsphere. The voucher can be redeemed at any Levy outlet in the Georgia World Congress Center.

12 – 1:30 p.m.

Ms. Janice Hurley

You Got This: Leading With Charisma and Confidence

As the business owner, you wear three very different hats and understanding how to embrace what you naturally do well and get better on those aspects that come harder will make going to work each day so much more enjoyable. Learn to present yourself as a strong consistent leader in the practice. Get comfortable and celebrate your management role. Face the fears of rejection and do it anyway.

1:30 – 3 p.m.

Dr. Bobbi Stanley

Grow Your Dental Practice With the Best Marketing Secrets

Stanley will discuss the best kept, most effective marketing secrets in dentistry. The course will touch on zero-cost marketing, how to get new patients for free, how to turn patients into ambassadors for your practice, how to maximize your online presence with social media, how to create a website that wows and SEO best practices.

Prevention Convention

Th201 | 8 a.m. – 3 p.m.
D H ST | Fee: Dentists \$180, All others \$110

8 – 9:30 a.m.

Dr. Tieraona Low Dog

Boning Up on Osteoporosis: An Update for the Dental Team

This highly informative session will provide the most current evidence for the prevention and treatment of osteoporosis. Intertwining medical and dental management throughout, allowing participants to gather personal and professional insights.

9:30 – 11 a.m.

Ms. Judy Bendit

Something to Chew On: The Effects of Aging on Oral Health

Just like all of us, our patients are advancing in age and are facing some complicated age-related consequences. Food impactions, expanding restorations, temperature sensitivity, xerostomia, grinding and erosion are just a few of the many issues they will face as they grow older. This course looks at the contributing factors that will be affecting our aging patients and provides an opportunity to discuss their personal, and our professional dilemmas. We will chew on the facts and spit out potential solutions that will help us all age tastefully.

Lunch is on your own from 11 a.m. – 12 p.m.

Note: Attendees will receive a \$10 food and beverage voucher when arriving at the course, courtesy of Hinman Housing Powered by Eventsphere. The voucher can be redeemed at any Levy outlet in the Georgia World Congress Center.

12 – 1:30 p.m.

Dr. Samson Ng

Oral Pathology Update for the Hygienist

Please join us for this interactive clinical-radiological-pathological correlation seminar designed to review clinical relevance of radiology/pathology and dental therapeutics that hygienists commonly encounter in a community practice. This seminar will focus on clinical mucosal examination identifying “WNL” versus “atypical” findings; principle of radiographic interpretation (nothing black and white, only something in between; and clinical identification and management of oral viral, and fungal infection.

1:30 – 3 p.m.

Ms. Shannon Nanne

Jump With Me! Take That Step to Treating the Entire Patient, Not Just the Oral Cavity We Are Used To!

We are experts in our field trained to recognize abnormalities, provide patients’ education, teach prevention techniques, screen for early detection, and provide prompt treatment. This is good intra-orally, but what happens when we see a mole on a patient’s face, lip, eye or skin that keeps getting bigger every time we see them? About three million non-melanoma skin cancers and 132,000 melanoma skin cancers occur globally each year. By the end of this course you will have the knowledge to save a life!

Assisting Extravaganza

Th202 | 8 a.m. – 3 p.m.

Dr. Mark Hyman

A “360 Slam Dunk” Guide for Successful Teams: Practice Enhancement

Change is inevitable – growth is optional. In this fast-paced, ever-changing world, dental teams must commit to taking a serious look at every aspect of the practice. Learn how to diagnose, devise a treatment plan and deliver optimal care. Enjoy this fun-filled, dynamic seminar and supercharge your practice today!

9:30 – 11 a.m.

Dr. Roger Levin

The Psychology of Case Presentation: Why Patients Say “No” When You Want to Hear “Yes”

Case presentation is a system. When the system is properly understood and followed, practice performance and productivity will immediately improve. In this exciting, energized seminar, Dr. Levin will explain the key principles of case presentation and case acceptance.

Lunch is on your own from 11 a.m. – 12 p.m.

Note: Attendees will receive a \$10 food and beverage voucher when arriving at the course, courtesy of Hinman Housing Powered by Eventsphere. The voucher can be redeemed at any Levy outlet in the Georgia World Congress Center.

12 – 1:30 p.m.

Ms. Judy Kay Mausolf

Communication Solutions: Attitudes, Breakdowns and Conflict Resolutions

Discover how to elevate communication to a level that inspires positive attitudes, prevents breakdowns and resolves conflict to take relationships from good to great! Learn skills to communicate positively and effectively with different and even difficult personalities. Create an environment where everyone looks forward to coming into the office, which ultimately results in growing your business. Inspire a culture of appreciation and acknowledgment. Communications expert Ms. Mausolf will show you how!

1:30 – 3 p.m.

Dr. Lori Trost

Become the “Awesome” Dental Assistant

Today’s dental practices operate at lightning pace. This unique course will all you to evaluate and improve upon your position within the practice and realize your potential. Through the creation of checklist and communication techniques, participants will learn to identify “triggers,” develop strategies to eliminate stress, maximize results and improve patient perception. Expect to leave energized, confident and ready to elevate your role on Monday!

Childhood Sleep Disordered Breathing: The Dental Team's Role

While childhood sleep disordered breathing is underdiagnosed, awareness is increasing. A child's growth and development are directly related to the quality of sleep. Dentists recognize the high levels of malocclusion in children, but often miss the connection to how unhealthy the child may be. This course will connect the dots from airway compromise to the everyday medical symptoms that children and parents are struggling with, to the treatment options that exist to help these families. Attendees will be able to understand the role of an orofacial myofunctional therapist, understand how myofunctional guidance appliances work, and understand how to develop a child's airway through collaboration. Participants will learn to identify the differences between nasal and mouth breathing.

Dr. Mark Murphy

Th208 8 – 11 a.m.

Taking Control of Your Financial Planning and Investing

The “secrets” for getting it right are straightforward—save something every year, invest simply and sanely and avoid the big mistakes that lose capital and take years to make up. Investing doesn’t have to be complicated, but it’s made to look that way by the advisors who charge a fee to manage their clients’ portfolios. This lecture will teach doctors how to do their own financial planning and introduce them to investments (i.e., stocks, bonds, mutual funds, etc.) to allow them to take back control—or at the very least to be able to measure how their advisors are doing.

Dr. Lee Ann Brady

Understanding and Managing Root Resorption

Root resorption is a very poorly understood topic in dentistry. Most dentists were taught about internal versus external resorption in dental school, but now know there are many different subtypes of resorption. Adding to the confusion are many names for the same types of resorption and our classification system is incoherent. This course seeks to rectify these problems and add clarity to this complex phenomenon. Management of resorptions is nuanced and tailored to the type, extent, location and individual patient desires. The course will explore these management options in a way that is easy to understand and take back to your practice.

Dr. Bobbi Stanley

Simplifying Your Restorative Cases Using the Bonded Functional Esthetic Prototype

The importance of preserving as much tooth structure as possible in porcelain veneer or full mouth rehabilitation cases is crucial for the long-term success of our restorations. By including the bonded functional esthetic prototype (BFEP) into this equation, dentists can achieve: 1. A functional “mock-up” that patients can wear for a prolonged period of time. 2. Controlled and calibrated tooth reduction to preserve tooth vitality in excessive wear cases. 3. Use of the BFEP as an occlusal splint when altering VDO. This course will walk attendees through a logical treatment planning sequence that will help them organize clinical steps and increase acceptance rate.

Note: This course is recommended prior to taking course Th116.

Fifty Shades of Inflammation: The Mouth Body Mind Link!

Want to learn about “permanent lifestyle change” in a way that resonates with every one of a patient’s 110 trillion cells? Evaluate an avalanche of evidence demonstrating the connection between patients’ mouths with modern lifestyle habits: lack of sleep (saps their discipline), shift work (after four night-shifts blood sugar is elevated), poorly managed stress (shows up in every cell of their body), overeating (high fat and processed food boosts inflammation) and sedentary living (did you know “Sitting is the New Smoking?”). Patients appreciate the dental health professional who sees the bigger picture and truly understands the relationship between the body, mind and mouth. Set yourself apart from the pack and develop a value added practice.

Ms. Amber Riley

Red, White and Blue, What Does It Mean to YOU? Practical Oral Pathology for the Dental Team

Oral lesions are a common finding in dental practice. During this course attendees will receive not only a refresher program on the topic of oral pathology, but will also be brought up to date with the most current, relevant discussions of widespread oral pathologies including their origins, treatments and outcomes. The audience will learn valuable insights and techniques that can be immediately introduced into their clinical practice to improve early detection and improve patient care.

Ms. Laci Phillips

Communications, Coding and Collections: The Three Cs of the Profitable Practice

When the first question a patient asks is “How much will my insurance pay?” our daily lives begin to revolve around insurance. Learn to step out of that mindset and step into customer service, quality health care and, ultimately, a profitable practice. Discover how excellent communication, proper coding and above average collections can impact a practice’s efficiency and financial health. Walk out of this high-energy course feeling energized with the realization that the revolution has just changed.

HIPAA Hackers and Hype

It seems that we hear of a new data breach or hack almost every day. Data security and HIPAA compliance is a huge issue that most dentists are struggling with. As a dental professional you have a moral and legal obligation to protect your patient’s confidentiality. There are important real world measures dentists should be taking beyond the paperwork that can make an actual difference in patient data security, including your “get out of jail free” card.

Dr. Henry Gremillion

Th319 12 – 3 p.m.

Orofacial Pain in Children and Adolescents

Orofacial pain symptoms are reported in adults, but young adolescents and children can also present with these diagnostic challenges. To manage or refer these disorders effectively, you must first be able to differentiate among these multifaceted disorders. A proper diagnosis will lead you to select the appropriate therapy for the best resolution of each patient’s problems based on sound scientific principles. Learn the appropriate use of occlusal appliances in this patient population, the differential diagnosis of headaches in children, the relationship between orthodontic therapy and TMD and potential causes of sleep-related bruxism.

Your Actions Speak Louder Than Words: Ethics Is Truly Your Choice

Ms. Gunn’s real life stories drive home the point that ethics are simply our choice. Straight out of the headlines, discover what it means to have ethical standards, what and who influences our ethics, and how one loses their sense of ethics. But, let’s take it one step further. How is ethics applied in our practice? What and who influences ethics? How can you stand firm in who you want to be? Explore how a practice can develop their code of ethics.

The Buzz about Bioactives

Bioactive this, bioactive that. We are being bombarded with this term in advertisements. As with all new concepts (this one really isn’t new), there is legitimate excitement but also significant hype. Starting with the definition and history of bioactives in medicine and dentistry, Huffines will guide attendees through the role of bioactives in endodontics, oral surgery, implant dentistry and restorative applications. Special attention will be paid to the role of bioactives in the management of deep carious lesions.

Building a World Class Team: How to Go From Good to Great

Building a high-performance team is one of the most difficult challenges. Yet the payoff empowers the dentist to achieve long-term practice success. The key is implementing proven systems that lead to higher production, a happier staff and greater practice success. In this seminar, learn the systems that create a superior team, reduce stress, improve patient satisfaction and create the practice you've always dreamed of. Attendees will also learn powerful team-building strategies, increase production by 20–25% through team effectiveness, increase hygiene production by \$100,000–\$200,000, increase case acceptance, double patient referrals and more!

Successful Tactics in Managing Peri-Implant Diseases

Perplexed by the elusive inflamed dental implant? Confused by the various treatment/management strategies? The introduction of dental implants in the overall management of patients is at an all-time high and dental professionals have yet to achieve consensus for a standard of care. Recent data now demonstrates that inflammation associated with implants is commonplace and can result in loss of the implant with failure rates continuing to be at an all-time high. Long-term implant success can depend on quality prevention, treatment and maintenance. The dental team (especially the dental hygienist) requires successful systems and tools to enhance longevity and implant health.

Cancer Prevention in the 21st Century

The National Cancer Institute estimates that roughly one-third of all cancer deaths may be diet and/or lifestyle related. What you eat can hurt you, but it can also help you. Many common foods contain cancer-fighting properties, from damage neutralizing antioxidants to the powerful phytochemicals that scientists are just beginning to explore. Could broccoli really help protect against breast cancer? Does eating fish reduce the risk of colorectal cancer? Is green tea really good for you? Can how you live and think influence cancer? Come and explore the role of nutrition and lifestyle in cancer—and how you can give yourself an edge.

“Bad to the Bone!”: Osteoporosis and its Treatment and the Link to Osteonecrosis of the Jaw

About 54 million Americans have osteoporosis and low bone mass, placing them at increased risk for osteoporosis. Studies suggest approximately 1 in 2 women and up to 1 in 4 men age 50 and older will break a bone due to osteoporosis. Unfortunately, misinformation exists about the current treatment guidelines for this insidious disease. This program will provide participants with an overview of osteoporosis and the various agents available for its prevention and treatment. Using case scenarios, special emphasis will be given to dental patients taking bisphosphonates and other anti-resorptive medications. Attention will also be directed toward developing patient management strategies essential for successful treatment planning and the management of these patients in everyday clinical situations.

DANB Forum
Th327 1 – 2 p.m.
Repeated on Friday (Fr346)
ALL ATTENDEES | No Fee

The entire dental team is invited to attend the Dental Assisting National Board Inc. (DANB) forum. DANB offers certification opportunities for dental assistants at every stage of their careers. DANB will outline how to apply and prepare for the exams, discuss the many benefits of certification, share information about state regulations and the results of its salary survey. Attendees will learn how DANB exams can help to ensure compliance with state dental practice acts, as well as learn more about the DALE Foundation, the official DANB affiliate and the e-learning products it offers.

Dynamic Branding and Marketing: Bringing Your Story to Life

Have you always wanted to write the story of your life? That is exactly what social marketing is. This course will discuss the three key components to bringing your story to life, branding, marketing and your “Webutation.” Branding is who you are. It is the promises that you make to yourself and to your consumers. Marketing is discovering your target audience and implementing how to get the word out. And finally, your life is always changing and so could your “Webutation,” that is why monitoring it is essential. It is your story, let’s bring it to life!

Personal Insurance: What Dentists Need...and Need to Avoid

The key to buying insurance is to think tactically. The only reason to buy it is to cover a risk we can’t afford to cover ourselves. Yet, insurance, particularly life insurance, is sold on the grounds that it is a good investment (it’s not) or because of certain tax advantages (debatable). This lecture will address various categories of insurance – life, disability, liability (covering our homes, autos and practices), long-term care, employment practices and cyber-security – and in the process, explain what to buy and what to avoid.

Botox and Dermal Filler Training with Cadaver Anatomy Review Workshop

Covering more areas than any other injectable training, FACES offers the only course that includes a cadaver anatomy workshop and live patient training. The program covers nearly all cosmetic indications for Botox® plus masseter and temporalis, in addition to the most commonly requested areas for dermal fillers in the lower face. This course prepares attendees to safely and confidently treat patients and begin building their injectable practice.

Note: Per Georgia State Law, only Georgia licensees are allowed to inject patients. Injectors provide their own patient models. Each injector may inject one Botox® patient and one dermal filler patient.

Note: Course is approved by the Georgia Board of Dentistry.

Note: Attendees are required to bring a camera suitable for patient photo documentation and are encouraged to bring readers, loupes and headlamps.

Dr. Gigi Meinecke

Fr119 8 a.m. – 12 p.m.

Suturing for the General Practitioner and Surgical Staff
This intense, yet fun, hands-on course makes suturing and socket grafting easy with discussions on materials, needles, techniques and surgical knots. It also shows the how, when and why of suturing for specific clinical procedures and the placement of regenerative barriers. This course is a must for all members of the surgical team.

Dr. Jamison Spencer
Fr144 1 – 4 p.m.
Repeated on Saturday [Sa154]
D A ST | Fee: \$365

Hands-On Dental Sleep Medicine
In this hands-on program, Dr. Spencer will expand on his lecture, Obstructive Sleep Apnea: Looking Beyond the Teeth and Saving Lives! Take a journey from the initial patient examination, to diagnosis, appliance selection, bite registration, fitting, follow up and avoiding side effects. Participants will take a bite registration on each other and fit a morning repositioner.

Note: Course Fr239 is recommended prior to attending this course.

 **Dr. Robert Stanley**
Fr145 1:30 – 3:30 p.m.
Repeated on Saturday [Sa160]
D | Fee: \$250

Rationale for Guided Implant Surgery: Hands-On
Dr. Stanley will contrast guided vs. non-guided systems for implant placement and discuss the myriad reasons for placing implants using a fully guided surgical protocol. Students will then be led through two hands-on, simulated implant placements using guided systems to experience the advantages of guided placement protocol. This fully-interactive course will leave students prepared to make informed buying decisions when researching implant systems and their varying guided vs. non-guided protocols.

Note: Attendees should bring loupes and lights.

Dr. Tom McDonald
Fr146 1:30 – 4:30 p.m.
D LT ST | Fee: \$350

Occlusal Splint Fabrication
Splint therapy can be a valuable tool for the advanced restorative practice. Occlusal splints can be used for TMJ diagnosis and therapy, stabilization of mobile teeth, confirmation of the starting position for treatment, testing of the proposed occlusal treatment scheme and an incredible form of phase one treatment. Use this lab-intensive hands-on course to refine your skills. Attendees will manipulate an occlusal splint and establish an ideal occlusion for an actual clinical case.

 **Dr. Sam Strong**
Fr147 1:30 – 4:30 p.m.
D LT | Fee: \$295

Implant Overdenture and All on Four Workshop
This participation workshop provides hands-on experience with open tray and closed tray impressions for overdenture and All on Four cases. Overdenture attachment selection guidelines and connection of attachments for intra-oral pickup will be performed by attendees. Expedited procedures to complete these cases accurately and in fewer appointments will be illustrated and performed with detailed instructions. Overdenture vs. All on Four procedures will be compared for cost effectiveness and patient acceptance.

Ms. Judy Bendit
Fr148 2 – 5 p.m.
D H | Fee: \$95

Ergonomic Longevity in Dentistry: Positioning for Life
As clinicians, we are challenged each day to provide quality care through effective instrumentation. Often, however, little attention is given to the fact that appropriate instrument selection, design and usage can reduce the risk of occupational injury. Designed for the dentist and dental hygienist, this half-day hands-on workshop will help you become comfortable with recent advancements in instrument design and practice techniques to reduce occupational injury.

Ms. Susan Gunn

GO TRACK: HOW NEW DENTISTS CAN GO FURTHER, FASTER!

 Dr. Sully Sullivan

Fr500 1 – 4 p.m.

D ST | Fee: Dentists \$95, Dental Students NO FEE

What It Takes to Transition From Associate to Owner

This course is designed for new dentists looking to own and dentists looking to phase out or hire a dentist to take over their practice. One of the main topics is the importance of understanding generational tendencies along with how different generations can work together to make an unstoppable team. This course will discuss the pros and cons to owning a practice as well as the benefits to multiple owning doctors in a group.

Keys to Early Success After Graduating Dental School

This course will discuss the challenges young doctors face after graduating and the best ways to improve, grow and become successful. Highlights include utilizing access to education, technology, and the importance of mentorship. We will talk about the top 10 things I wish I knew when I graduated!

Leveraging Technology to Go Further, Faster

Technology is the great equalizer. In fact, what perhaps took weeks or months to learn years ago now can be potentially done in a matter of hours or days. This course will focus on how technology both from a clinical and business perspective can help your practice go further, faster! Topics include CBCT, CAD/CAM technology, and numerous amounts of patient communication tools that can increase new patient growth and case acceptance.

**COMPLIMENTARY SNACKS AND BEVERAGES

“Sugar, Yes Please!”: Diabetes, Dental Considerations and Winning Patient Care Planning Strategies

Diabetes and its co-morbidities are a leading cause of death. The systemic complications of diabetes have a significant impact on dental therapy. This program explores diabetes, the arsenal of medications used in its treatment and the impact of both the disease and its treatment on dental therapy. Participants will explore patient management strategies essential for successful treatment planning and proper care of the diabetic patient. Special emphasis will be placed on the complex interplay between diabetes and the oral-systemic connection.

Set Your Practice on Fire: Why Some Practices Are Highly Successful... and Others Are Not

Dentistry is changing at the fastest pace in history. Some practices thrive, while others don’t. The difference stems from the decisions and actions that dentists take. Every practice today needs a growth and success plan and it is easier than you think. This course shows any dentist and team the right way to proceed in a vastly more challenging environment. Many are frustrated because they lack the business background to implement the right changes in the right way for today’s more competitive environment. This course goes right to the heart of what needs to be done and how to do it.

Dr. Todd Davis
Fr332 8 – 11 a.m.

Improving Restorative Outcomes: Aesthetic Surgical Periodontics and Your Practice

For many years surgical periodontal procedures were thought of as destructive, disfiguring techniques which negatively impact patients' aesthetic sensibility. This presentation will focus on the harmonious relationship between aesthetic parameters and surgical periodontal therapy. Understanding the importance of case selection, the concept of "Biologic Width," and the dynamics of wound healing will improve your restorative end results. Control of patients' aesthetics is maximized when the restorative dentist has a comprehensive understanding of the "Gingival Frame" surrounding their work.

Dr. Mario Romero
Fr335 8 – 11 a.m.

Paving the Way to a Caries-Free Practice: How Technology is Changing Delivery of Care for Caries Patients

This program focuses on the innovations/advancements in remineralization products/technologies that will influence and change the delivery of care we provide our patients. "Caries Risk Assessment" surveys help identify patient risk level, and then mapping out a treatment plan that takes into consideration all factors that can influence the caries pattern and prevalence. We will develop treatment plans that incorporates appropriate modalities and patient applied practices, along with the latest technologies, to diagnosis/reverse early caries patterns. We will focus on fluoride in OTCs, in-office varnishes and SDF. So, let's pave the way to a caries-free practice.

IRAs and Retirement Plans: What's Right for You?

Tax deductible retirement plans and IRAs are the best legitimate tax shelter going. Deductible contributions are obviously valuable, but so is the less visible long-term tax deferral. There is a natural progression with IRAs and plans that is a function of our capacity to save each year, and this lecture will give a background on the IRA contribution rules (traditional and Roth) as well how to save greater amounts in simple IRAs, 401(k) profit sharing plans, and, ultimately, cash balance defined benefit plans. The rules are technical (frankly, overly so), but these savings vehicles can be mixed and matched for optimal results.

Prosthodontic Protocols for the Modern Dental Team: A Team Approach to Navigating the Prosthodontics Restorative Landscape

Modern dentistry is changing at a rapid pace. The focus of the presentation is to show how the dental technician and dentist involve each other throughout the entire treatment process in order to achieve predictable success for our patients. CAD/CAM, new techniques, and materials are evolving almost on a daily basis. It is crucial to adapt to the times; however, it is of utmost importance to have a foundation in prosthodontic protocols to succeed. These foundations will help the dental team adapt to the times in a more productive and predictable fashion. The lecture will discuss updated techniques from full mouth rehabilitations using cad/cam, photo protocols with shade taking, to alternative restorative techniques such as non-invasive veneers.

HPV and Oropharyngeal Cancer: An Update on an Emerging Dental and Public Health Issue

Learn the latest scientific updates on human papillomavirus (HPV) and its related health outcomes, including oropharyngeal cancer. Explore the epidemiology, risk factors and strategies for the primary and secondary prevention of HPV, and its potential outcomes. Furthermore, discover the potential roles for dental professionals to engage and educate our patients on the HPV and oropharyngeal cancer connection.

The Other Half of the Practice Software Equation: QuickBooks Pro
 It's time to address the other half of your practice's accounting. Patient treatment, insurance and payments are in the practice software. But what about QuickBooks? What's the best way to enter deposits? How should payroll be processed? What reports should be reviewed? Not your typical accounting course, you will laugh and walk away ready to implement. Come learn how to easily use QuickBooks Pro (desktop version).

Note: Attendees receive the book "2020 Getting the Most Out of QuickBooks" valued at \$129.

Dr. Jeff Pafford
Sa507 12:30 – 2:30 p.m.
D H | Fee: \$95

Pain, Testing and Diagnostics: How to Get It Right the First Time
 When a patient is in pain and in the chair, they seek your expertise to alleviate their immediate problem. Diagnosis is often straight forward, but what about when it isn't? Frequently there are multiple layers of pain clouding our testing and judgment. It is important to get it right, and there is no topic more fraught with downside than an incorrect diagnosis. In this interactive discussion, the course will dive into complex diagnostic situations and strategies to get it right and serve our patient population. Solving a patient's immediate pain builds trust and is an integral part of comprehensive dentistry.

Restorative Challenges in Seniors

Most Americans now enter the senior years with natural dentitions. However, aging causes changes in the oral cavity which have a direct impact on restorative dentistry. Age-related changes to pulpal tissues and dentin reduce bonding. Attrition, abrasion, erosion and other tooth wear phenomenon affect restorative contours, material longevity and occlusal harmony. Xerostomia increases caries risk, especially root caries, and must be properly addressed to achieve long-lasting results. Learn practical skills and techniques to use immediately in the booming senior market.

Dr. Jeff Pafford

Sa283 8 – 11 a.m.

Repeated from Thursday [Th214]

D H | Fee: Dentists \$95, All others \$65

Understanding and Managing Root Resorption

Root resorption is a very poorly understood topic in dentistry. Most dentists were taught about internal versus external resorption in dental school, but now know there are many different subtypes of resorption. Adding to the confusion are many names for the same types of resorption and our classification system is incoherent. This course seeks to rectify these problems and add clarity to this complex phenomenon. Management of resorptions is nuanced and tailored to the type, extent, location and individual patient desires. The course will explore these management options in a way that is easy to understand and take back to your practice.

Dr. Mike Pruett

Sa284 8 – 11 a.m.

D H A LT ST | Fee: Dentists \$95, All others \$65

What to Do When Implants Go Wrong

Implants have proven to be a viable option for replacement of missing teeth and for retention of both fixed and removable prosthetics. They do, however, present their own set of challenges. This presentation will address both surgical and prosthetic failures. Topics will include diagnosis and management of complications at the time of surgery, failing implants and management of prosthetic failures. A review of pre-operative planning to minimize failure and postoperative complications will also be discussed.

What's in Your Armamentarium? Thingamajigs, Whatchamacallits and Other Essential Products to Upgrade and Improve Your Hygiene Procedures

You have, no doubt, heard the expression "What's in your wallet?" For those of us in the dental industry, a more appropriate question might be: "What's in your Armamentarium?" What if I told you that you could upgrade what's in your armamentarium in a way that could help you work better, smarter and more efficiently? Join me for my course called Thingamajigs, Whatchamacallits and Other Essential Tools to learn how to upgrade and improve the instruments you work with every day.

Dr. David Clark

Sa286 8:30 – 11:30 a.m.

ALL ATTENDEES | Fee: Dentists \$95, All others \$65

Modern Conservative Dentistry

Traditional sealants show failure rates as high as 92 percent. Posterior composites remain a struggle, with failure rates up to 50 percent higher than amalgam. Post-operative sensitivity remains a problem, and too many pulps are dying. Cracked teeth are the No. 3 cause of tooth loss today. All is not lost! Minimally invasive dentistry is hot and here to stay. Designed for the entire dental team, this course will present new findings in materials along with a wealth of tricks, tools and techniques to update your skills.

Dr. Sam Strong

Sa287 8:30 – 11:30 a.m.

ALL ATTENDEES | Fee: Dentists \$95, All others \$65

Digital Dentures, Overdentures and Hybrids: Virtual Planning and Computerized Milling

This lecture will show how digital scanning, planning and production procedures have vastly changed removable and fixed prosthetics. Seamless integration of digital scans, virtual design and biometric milling with improved impression and centric relation methods will be featured. The digital revolution will be illustrated with accelerated and simplified workflows including solid try-ins to produce more accurate dentures, overdentures and hybrids with far less breakage.

Ms. Judy Kay Mausolf

Sa288 9 – 11:30 a.m.

Become a Hero of Dentistry and Solve the Dry Mouth Mystery!

Xerostomia is not a disease but it is a serious condition that is annoying and uncomfortable. Xerostomia is usually caused by a disease or an underlying condition. It affects a patient's quality of life while speaking, eating or even trying to sleep. Hypo-salivation can damage the tissues of the mouth while presenting a clinical challenge. Twenty-five percent of patients suffer from this affliction. Contrary to myth, age is not a cause of dry mouth. This course will turn attendees into dry mouth superheroes!

S.I.L.V.E.R. PROGRAM

Strategies to Implement that Lead to a Valuable and Enjoyable Retirement

Dr. Sully Sullivan
Sa358 9 – 10:30 a.m.
D H A OS ST | No Fee

Collaboration of Generations is a Recipe for Success

In today's social media world, it's pretty easy to cast a negative light on generational differences. For instance, not all millennials live in their parents' basement. Likewise, not all baby boomers failed to save for retirement. In fact, when multiple generations collaborate together in the workplace, magic can happen. In this course, attendees will hear from two different generational doctors who work together. They'll discuss what it takes to utilize the strengths of each generation to have enormous workplace success.

Dr. John Muse
Sa359 10:30 a.m. – 12 p.m.
ALL ATTENDEES | No Fee

Stress, Life Balance and Second Chances

In May 2014, Dr. Muse experienced a sudden death episode due to a massive cardiac arrest. He will talk about life events leading up to that day, his experience in the hospital, and things he has changed to reduce stress and find more balance in his life. Whether you are just beginning practice, or near retirement, this presentation will hopefully inspire you, give you a greater appreciation of how fragile life is and motivate you to seek out more balance in your own life.

The Five-Thread Rule: A New Guideline for Predicting Primary Stability With Dental Implants

Best practices exist for sizing and positioning dental implants but too few guidelines are designed to aide clinicians in predicting primary implant stability in healed or fresh extraction sites. Predicting an implant's likelihood of surgical success is significant for two reasons: 1. It determines the treatment options—if the conditions for a successful placement do not exist, alternative treatment plans, such as site development, should be considered; 2. Successful prediction of a surgical outcome maintains a good doctor-patient relationship.

Dr. Laura Braswell
Sa366 9 – 11 a.m.

The Safest Dental Visit: The Role of the Infection Control Coordinator

Safety should always be the main focus in the delivery of care in the dental practice setting. This presentation will discuss the importance of a designated safety/infection control coordinator to manage and coordinate the practice safety program. Attendees will learn strategies to execute infection control related responsibilities. Ensuring that one team member is the point of contact for infection control compliance provides consistency and accountability. This course will include information about the most recent CDC Dental Guideline recommendations.

Dr. Jay Smith
Sa391 1 – 4 p.m.
D A OS LT ST | No Fee

Enhanced Esthetics with Crowns and Veneers

Many patients visit dental practices solely for esthetic enhancements. Cosmetic dentistry has evolved into an integral element of contemporary dental practice. Dentists must develop the ability to evaluate existing cosmetic deficiencies and recognize patient expectations to design proper procedure for smile improvement. Dr. Smith will discuss the factors that make up smile design and decision making for the best treatment options for the patient. Current preparation techniques for crowns and veneers will be presented as well as material options with regard to esthetics and function. This presentation will outline restorative techniques from diagnosis to completion. Preparation techniques, provisional techniques, longevity and cementation recommendations for various materials will be discussed.

Mr. Joshua Polansky

Sa578 8 – 10 a.m.

Repeated from Friday [Fr575]

ALL ATTENDEES | No Fee

Prosthodontic Protocols for the Modern Dental Team: A Team Approach to Navigating the Prosthodontics Restorative Landscape

Modern dentistry is changing at a rapid pace. The focus of the presentation is to show how the dental technician and dentist involve each other throughout the entire treatment process in order to achieve predictable success for our patients. CAD/CAM, new techniques, and materials are evolving almost on a daily basis. It is crucial to adapt to the times; however, it is of utmost importance to have a foundation in prosthodontic protocols to succeed. These foundations will help the dental team adapt to the times in a more productive and predictable fashion. The lecture will discuss updated techniques from full mouth rehabilitations using cad/cam, photo protocols with shade taking, to alternative restorative techniques such as non-invasive veneers.

Dr. Amy Dayries-Ling

Sa579 9 – 10:30 a.m.

ALL ATTENDEES | No Fee

Holistic Dentistry: Practical Approaches to Insuring Health

Seventy percent of the population of the United States chooses complementary alternative medicine (CAM) techniques when faced with needing a health care solution. The modern dental office needs a working understanding of CAM techniques available that overlap with the scope of our practice in order to be supportive of patients since this material has not been traditionally included in dental school curriculum. This course explores the research (evidenced based medicine) related to CAM for effective solutions for common dental patient concerns including: dental treatment anxiety and fear, pain management, honoring the patient's desire to minimize chemicals and for the treatment of head injuries. The attendee will be shown which new solutions for old problems are effective. The course will enable the dentist to hold a respectful space for honoring the treatment wishes of a patient who wants to try CAM for their care.

Mr. Von Grow

Sa580 9 a.m. – 12 p.m.

ALL ATTENDEES | No Fee

The Platinum Foil Veneer and All Ceramic Solutions

This seminar reviews how cosmetic veneer cases can be completed with minimal prep or no prep at all. Imagine little glass slippers that go over natural teeth to change shade and shape, and achieve beautiful esthetic results. The clinician also shows traditional prep cases and all ceramic solutions including Pressed Lithium Disilicate and Zirconia. Discuss changes happening in dentistry and how you can decide which way you would like to shape your practice.

Mr. Step Toothmaster Bay

Sa581 10:30 a.m. – 12 p.m.

Repeated from Friday [Fr571]

An Integrative Approach to Dentistry: Connecting Whole Body Health in the Hygiene Chair

How can you get better results with your hygiene department and keep your patients begging to see you? This course teaches the dental team how to host conversations with the patient in your chair to solidify awareness and the value of the oral: systemic connection. This course reviews conversational basics for teaching oral: systemic connections to your patients. The attendee will learn what medical research supports regarding ties between oral and whole body inflammation, review the latest on nutrition and dietary trends, and the explore effectiveness of vitamin and mineral supplements.

Dr. John Puskas

Stuff Worth Knowin' About Money, Practice and Life

In this fast-paced, information-packed presentation, learn how to build wealth and minimize the risk of identity theft. Review top clinical products and time-saving tips and techniques to improve practice efficiency and success. Identify critically important information needed to protect your loved ones and consider eight keys to live life more fully. In just one hour, this program is a real "game-changer" and not to be missed!

AmericasMart Shopping 

Event Th400 | 9 a.m. – 4 p.m.

Fee: \$20

AmericasMart (Building 3), home to fashion, fine jewelry and accessories wholesale showrooms, is typically only open to trade professionals, but it will open its doors to registered Hinman attendees who show a name badge with event confirmation.

Note: Showrooms offer limited samples of clothing and accessories. Showroom days and times vary. Showrooms accept cash, but may require minimum amounts for credit card purchases. No strollers or children under the age of 12 will be admitted.

Tickets for this event may be purchased prior to the Meeting or at the Ticket Sales desk in the Registration Hall.

Take the Hinman Shuttle from the main entrance of the GWCC to The Westin Peachtree Plaza. Walk one block north on Spring Street to the AmericasMart, Building 3, main entrance located at 250 Spring Street.

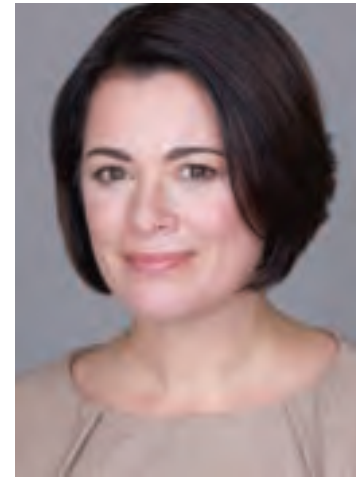

The  indicates that transportation to this event is included in the ticket fee.

Keynote Session with Colonel Nicole Malachowski

Event Th401 | 5:30 – 7 p.m.

GWCC | No Fee

Join us for the official opening ceremony of the Hinman Dental Meeting!

Doors and cash bar open at 5 p.m. with a musical prelude until 5:30 p.m. The Keynote Session introduces the Meeting’s Clinicians and Keynote Speaker, Col. Nicole Malachowski, USAF (Ret.) who defies stereotypes. A leader, a combat veteran, the first woman pilot on the Thunderbirds Air Demonstration Squadron, a White House Fellow, and an inductee into both the National Women’s Hall of Fame and the Women in Aviation International Pioneer Hall of Fame, Nicole’s distinguished 21-year Air Force career exceeded her wildest dreams. But the dream came to an end when a devastating tick-borne illness left her struggling to speak or walk for almost nine months. An indomitable spirit, Nicole fought back against overwhelming odds and prevailed. Drawing on stories from her career and personal life, Nicole inspires audiences to rethink the challenges they face every day. She urges them to go beyond resilience and become resurgent. Nicole empowers people with three key beliefs: failure and risk equal the price of entry for achieving something great; sometimes you need to yield to overcome; and her personal mantra - “nobody wants to lead a scripted life.”

Nicole earned a Master of Arts, with honors, in National Security Policy from American Military University and a second Master of Arts, with highest distinction, in National Security and Strategic Studies from the U.S. Naval War College. While there, she earned the Admiral Stephen B. Luce Award as the class honor graduate, the first Air Force officer in the history of the Naval War College to do so. As Nicole continues to recover from her neurological tick-borne illness, she embraces any opportunity to educate others about her medical journey and gains energy from educating others about this growing epidemic. She is on the Board of Directors at the LivLyme Foundation and is a Patient Advisory Board Member of The Dean Center for Tick Borne Illness.

Col. Malachowski, USAF (Ret.) was born in Santa Maria, CA and graduated high school in Las Vegas, NV. She and her husband Paul have twin children; son Garrick and daughter Norah. Paul is a retired Air Force Lieutenant Colonel and former F-15E Evaluator Weapons Systems Officer.

Marvin C. Goldstein Memorial Lecture

This session is sponsored by the Atlanta chapter of the Alpha Omega International Dental Fraternity in cooperation with the Thomas P. Hinman Dental Meeting. The Fraternity has dedicated this lectureship in memory of Dr. Marvin C. Goldstein.

Earn one hour of CE for attending this event.

Hinman Luncheon with Dr. Uche Odiatu and Ms. Janice Hurley

Event Fr404 | 11:45 a.m. – 1:45 p.m.
Omni Hotel | Fee: \$75

Timeless Body – Ageless Mind

Ever marvel at people who have boundless energy and keep their edge at any age? Want to kick off the covers with confidence and spring out of bed with incredible spirit? Want to be more energized for your busy clinic day? People who appear to have slowed down the aging process and enjoy mental clarity eat certain foods, do specific physical exercises and hold certain beliefs about themselves that support age defying living. After this session we'll have you bouncing out the door with confident living strategies ready to take on the world.

Southern Beer Tour 

Event Fr405 | 12:30 – 5:30 p.m.
Fee: \$68

Attendees must be 21 years or older to participate in this event.

Board bus at main entrance of GWCC at 12:30 p.m. for 12:45 p.m. departure.

Return bus will board at 5 p.m. for 5:15 p.m. departure.

There's no better, or safer, way to travel to taste the beer made right here in Atlanta than on this tour. Visit one of the largest craft breweries in the country, SweetWater Brewing Company. The tour will also stop at Monday Night Brewing and the oldest brewery in Georgia, Atlanta Brewing Company. Spend the afternoon sampling some of Atlanta's favorite beers and enjoy some delicious snacks. Best thing of all, Southern Beer Tours does all the driving!

Wine Tasting and Seminar with Mr. Michael Gallant

Event Fr406 | 3 – 4:30 p.m.
Omni Hotel | Fee: \$59
Attendees must be 21 years or older to participate in this event.

From Sparkling to Port

Michael Gallant returns to lead another fun and educational wine event. This year's wines will feature great California Cabernets and some different wines from the South of France. There will also be a chance to try stellar wine from Italy! As always, attendees will have a chance to win fantastic door prizes.

Dental Student Happy Hour

Event Fr408 | 4 – 5 p.m.
GWCC, Exhibit Hall | No Fee

Calling all dental students! Join us for Happy Hour in Eatery 1 of the exhibit hall to kick off the night. Registered attendees receive two free drinks (beer or wine), snacks and are entered to win a free 3-night hotel stay at Hinman 2021! Come mingle with other dental students from across the country, play games and watch your favorite NCAA team in our lounge before you head out for the night.

Hinman's NIGHT OUT

AT THE TABERNACLE

Presented by **cricket** wireless

Friday, March 20 | 7–10:30 p.m. | Tabernacle | Event Fr407

HINMAN'S NIGHT OUT is GOING to ROCK!

Plan to spend your Friday with us at the Tabernacle and dance the night away with

Dinner buffet, desserts & two drink tickets for all attendees

A chance to win gift card prizes valued between \$5 & \$500, with \$4,000 in total prizes

THE RUPERT'S ORCHESTRA

TICKETS

Tickets are \$50. Students and residents pay \$25. Meeting badge with proof of purchase must be presented for entry. All tickets must be purchased in advance. No tickets will be available at the door. All attendees must be at least 18 years of age.

TICKET INCLUDES

Each ticket includes access to the historic Tabernacle, a delicious buffet dinner catered by Proof of the Pudding, two drink tickets (additional beverages will be available for purchase) and live music by Atlanta's own The Rupert's Orchestra, one of the top party bands in the Southeast.

HOW TO GET THERE

Please use the main entrance of the Tabernacle located at 152 Luckie Street NW. The Hinman hotel shuttle routes will run until 11 p.m. The shuttle will also stop at the Omni Hotel during this event only. The Tabernacle is a half-mile walk from the GWCC. There are numerous parking lots and decks in the downtown area (rates vary). The closest parking lot to the venue is located at 157 Luckie Street NW.

Everyone attending MUST register for the Meeting and the event since tickets are required for entry. Tickets must be purchased in advance.

Junior League of Atlanta Tour of Kitchens 

(This tour will visit three or four kitchens)

Event Sa409 | 9:30 a.m. – 12:45 p.m.

Fee: \$48

Board bus at main entrance of GWCC at 9:30 a.m. for 10 a.m. departure.

Bus will return to the GWCC at 12:45 p.m.

The 23rd Annual Tour of Kitchens will showcase some of Atlanta’s finest residential kitchens created by the city’s most celebrated kitchen designers. Elite chefs from Atlanta will perform culinary demonstrations in various homes on the tour. You can use your ticket for this event to visit homes (on your own) that are on the Sunday portion of the tour.

GET THE HINMAN APP!

Manage your registration account on the go and access these features in real time:

- ✓ Course Room Locations
- ✓ Exhibitor Lists, Floor Plans & Show Specials
- ✓ Maps of the GWCC & Omni
- ✓ CE Verification (avoid the lines and email certificates to print from home)
- ✓ Add Courses & Special Events Onsite

New this year, “opt in” to making your profile visible the first time you log in to the App so friends and colleagues can see that you are attending. What better way to reconnect with old friends?

The Hinman Shop

Take Hinman home with you.

Be sure to stop by the Hinman Shop, located in the Marketplace in the Exhibit Hall. Proceeds from the store will be used by the Hinman Trustees for scholarships to support dental, hygiene, assisting and lab tech students. A variety of items will be offered, including t-shirts, water bottles and golf shirts.

108th Hinman Limited Edition Merchandise

2020 Hard Rock Café pins will be available for purchase for \$14 at the Hinman Shop located in the Marketplace in the Exhibit Hall.

A portion of the sales will fund a scholarship for dental education.

EXHIBIT HALL HOURS

THURSDAY 9:30 a.m. – 5 p.m.
FRIDAY 9:30 a.m. – 6 p.m.
SATURDAY 9:30 a.m. – 3 p.m.

EXCLUSIVE HALL HOURS

THURSDAY 3 – 5 p.m.
FRIDAY 5 – 6 p.m.

The Exhibit Hall is a World of Education

With more than 400 exhibiting companies, there is a plethora of opportunities to learn about new products and services for your practice to consider or ways to better use your existing equipment.

In addition to exhibits, the Hinman Exhibit Hall offers these free CE opportunities:

- **Table Clinics** – View scientific table-top presentations and earn one hour of CE for each hour spent in the Table Clinics area.
- **Total Health Pavilion** – Attend one-hour sessions to learn about nutrition, health and wellness, CardioRisk and oral cancer.
- **Learning Lab** – A variety of topics will be presented, including course material specific for lab techs.

Participation Courses – Courses that have a fee, held in Rooms 1 - 5, offer a hands-on experience while addressing different techniques.

New this year! The Hinman Podcast Lounge

Booth 757

Listen in, subscribe and chat with the hosts while they record their episodes. Recharge your device and regroup after a busy day at the Meeting in this comfortable lounge. Be sure to bring your device charger to plug in, then sit back and take a break while you listen in to these popular dental podcasters:

Hinman Lunch and Learns

Friday, 12 – 1 p.m. | Fr503 **D** | Fr504 **H A OS** | Fee: \$25

Location: Learning Lab Pavilion on the Exhibit Floor, Booth 406

Join us for lunch and listen to Hinman exhibitors as they share valuable information about their products or service. This course allows you to earn an hour of CE while you eat—a two for one! During this time, five exhibitors will share knowledge and research on a particular product or service. Lunch is included in the fee for the course.

PRE-REGISTRATION

- Pre-register to avoid waiting in line and to guarantee a seat in all courses.
- There are two ways to register:
 - 1) Register online at Hinman.org
 - 2) Mail a registration form to:
The Thomas P. Hinman Dental Meeting
6840 Meadowridge Court
Alpharetta, Georgia 30005
- Registrations cannot be accepted by fax or phone.

Only one registration form is necessary for each office, including dentists, auxiliaries and family members. The registration form can be copied to accommodate additional registrants. Hinman accepts Visa, MasterCard, American Express or a check for either pre-registration or onsite registration.

Attendees whose pre-registration forms are postmarked or received online by **Thursday, February 20, 2020** will receive their registration badges in the mail. Registrants should bring all of these materials to the meeting. Those individuals who register after February 20 must pick up their materials onsite.

YOU MUST REGISTER FOR ALL COURSES

- **General Attendance:** Registration for these courses can only take place during the pre-registration process. Attendees must have general attendance courses listed on their course summaries to enter the room before the start of each course. Seating for these courses is only guaranteed up to the published start time. After the published start time, admission to each general attendance course will be on a first-come, first-served basis until the room is at capacity.
- **Registered Attendance:** Confirmation of these courses will be printed on each badge for those who pre-registered. Seats can be purchased from Ticket Sales in Registration or using the Hinman APP onsite.

ONSITE REGISTRATION HOURS

(Location: GWCC Main Entrance)

Wednesday, March 18	1 – 5 p.m.
Thursday, March 19	7:30 a.m. – 5 p.m.
Friday, March 20	7:30 a.m. – 5 p.m.
Saturday, March 21	7:30 a.m. – 4 p.m.

CHILDREN

Children (under the age of 12) and Youth (ages 12 – 20):

- Must register to attend the meeting,
- Can visit the Exhibit Hall and
- Are not permitted in lectures.

Strollers are not allowed in the Exhibit Hall.

Visit attend.atlanta.net/attend/hinman2020 to view a list of children’s activities available in Atlanta. We encourage you to bring your family and enjoy all our city has to offer!

The Thomas P. Hinman Dental Meeting has carefully selected all lecturers, exhibits and exhibitors to present at the 2020 Hinman Dental Meeting. The contents of any particular program, lecture, exhibit or handout are the responsibility of the respective lecturer or exhibitor presenting such material. The Hinman Dental Society does not endorse or approve any materials so presented.

HINMAN CODE OF CONDUCT

As a professional organization, The Hinman Dental Society of Atlanta, Inc. (the "Society") insists upon maintaining an atmosphere of decorum, courteousness and professionalism. **The Society is dedicated to providing a safe, harassment-free and inclusive experience for all participants at all Society-organized events and has a zero-tolerance policy for harassment of participants in any form.** Participants include but are not limited to Society employees, members, attendees, guests, staff, speakers, sponsors, exhibitors, Advisory Committee members and Executive Council members. A Society-organized event includes business at the Society office as well as The Thomas P. Hinman Dental Meeting and official social events and receptions, the Hinman Annual Meeting and other membership meetings, board meetings, committee meetings and any other event for which attendees are asked to RSVP or register through the Society.

Harassment includes but is not limited to offensive comments or gestures related to gender, gender identity, age, sexual orientation, disability, physical appearance, race, ethnicity or religion. **Harassment also includes but is not limited to** intimidation, bullying, stalking, following, harassing photography or recording, sexual images in public spaces, sustained disruption of presentation or other event, inappropriate physical contact and unwelcome sexual attention. Harassment can occur in real or virtual space, including social media related to a Society-organized event.

If you observe or experience harassing behavior that you believe is in violation of the Code of Conduct, **please report the incident immediately** to the Hinman office at (404) 231-1663 and ask to speak to either the President or the Executive Director regarding an incident of harassment. The Society will take every complaint seriously and investigate each complaint promptly, thoroughly and impartially. All complaints will be handled as confidentially as possible. The Society reserves the right to determine, in its sole discretion, whether any behavior at any Society-organized event is unacceptable and in violation of this Code of Conduct. In the event that it is determined that an individual has violated this Code of Conduct or has otherwise engaged in conduct that is deemed to be improper, prejudicial or detrimental, the Society reserves the right to discipline such individual, including but not limited to (1) removing any such individual from the event or meeting with no refund of any fees paid, (2) barring any individual from attending future Society events or meetings and/or (3) suspending any such individual's Society membership or terminating any such individual's Society membership with no refund of any dues paid, or any other disciplinary action authorized under Article III, Section 8 of the Bylaws.

The Society shall have no liability whatsoever arising out of its interpretation and enforcement of the Code of Conduct.

ACCREDITATION & CONTINUING EDUCATION CREDIT

The Hinman Dental Meeting utilizes a computerized accreditation process. Attendees who register for courses will receive a badge listing the course and speaker for each class. Attendees will be advised of a four-digit code in each class for processing of CE credits. Hinman provides one hour of credit for each hour of lecture, unless otherwise indicated under the course description.

Computerized continuing education certificates can be printed at one of two locations during the Meeting:

- 1) Exhibit Hall, CE Printing: Thursday 9:30 a.m. – 5 p.m., Friday 9:30 a.m. – 6 p.m., Saturday 9:30 a.m. – 3 p.m.
- 2) Registration Hall: Saturday 1 p.m. – 5:30 p.m. only

Or

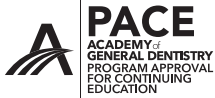

Get the Hinman APP to record your CE and send certificates to yourself to print at home.

ACADEMY OF GENERAL DENTISTRY

Approval does not imply acceptance by a state or provincial board of dentistry or AGD endorsement.

In order to meet the AGD deadline for CE submission, AGD members should process their CE no later than **April 24, 2020**.

The Thomas P. Hinman Dental Meeting
Nationally Approved PACE Program
Provider for FAGD/MAGD credit.
Approval does not imply acceptance by
any regulatory authority or AGD endorsement.
6/1/2017 to 5/31/2021
Provider ID# 219082

HANDOUTS & REGISTRATION CONFIRMATIONS

Registration confirmations will be sent in advance. Included with the information will be a user name and password for accessing specific handout materials and final course room locations. Please review this handout information in advance of the meeting and print, if needed. Handouts will be available **March 9 through May 8**. Plan ahead, download the handouts and get the most benefit from the courses!

ACCOMMODATIONS & TRAVEL INFORMATION

The designated hotel service for the 2020 Thomas P. Hinman Dental Meeting is **EventSphere**. No other housing organization has been authorized to represent Hinman for the 2020 Meeting. Specially discounted room rates have been secured in numerous hotels.

Representatives from **EventSphere** are ready to assist you with special requests relating to hotel rooms, multiple room blocks, suites, meeting space and food and beverage requirement for 2020 or 2021.

Booking reservations through the Hinman hotel service benefits all Hinman participants and provides the lowest hotel rates possible.

Select one of the following methods to make your hotel room reservations:

- 1) Call **EventSphere** at (800) 243-1581.
- 2) Book room requests online at Hinman.org.
Confirmations of hotel room selections are given instantaneously.
- 3) Email hinman@eventsphere.com.

To avoid duplications in the booking process, please select only one of the above-recommended methods.

DISABILITY-RELATED ACCOMMODATIONS

In compliance with the Americans with Disabilities Act, The Thomas P. Hinman Dental Meeting will make all reasonable efforts to accommodate persons with disabilities at the Meeting. Please submit your request no later than February 20, 2020, to Lynn Leidel at lleidel@hinman.org or (404) 231-1663.

Four Ways to Explore the 404*

In Atlanta, there is plenty to see and do when your course wraps for the day. Get out and explore the city with the perfect experience no matter what interests you.

*In the know: 404 is the area code for Atlanta and its closest suburbs!

OUTDOORS

Atlanta Botanical Garden – Atlanta is often referred to as the city in the forest with nearly 48% of the destination covered by an urban tree canopy. Adjacent to **Piedmont Park**, one of the city’s largest green spaces, sits the **Atlanta Botanical Garden**. This 30-acre urban oasis in Midtown surrounds guests with trees and flowers, offering a peaceful respite from the city. Skyline Garden is the latest space and offers scenic views of Midtown.

OUTDOORS

HISTORY BUFF

Martin Luther King Jr. National Historical Park – Atlanta would not be the progressive metropolitan region it is today without the efforts of Dr. Martin Luther King Jr. and other leaders of the American civil rights movement. His legacy continues to influence the city and beyond. Make plans to visit the **Martin Luther King Jr. National Historical Park** or the **National Center for Civil and Human Rights** for a deeper dive.

HISTORY

Ponce City Market Central Food Hall – For those whose appetites guide their travel decisions, Central Food Hall at Ponce City Market is a destination within itself. Prominently located along the **Atlanta BeltLine** Eastside Trail, **Ponce City Market**

FOODIES

is a culinary haven, connecting Atlanta’s most popular intown neighborhoods. Central Food Hall includes stalls from Atlanta’s popular James Beard Award-winning chefs.

FOODIES

Retail Destinations in Buckhead – Atlanta’s upscale Buckhead neighborhood is long-established as the destination for fashionistas and boasts three high-end shopping complexes earning the nickname, “Rodeo Drive of the South.” Nearly every brand imaginable can be found within

Phipps Plaza, Lenox Square and The Shops Buckhead Atlanta.

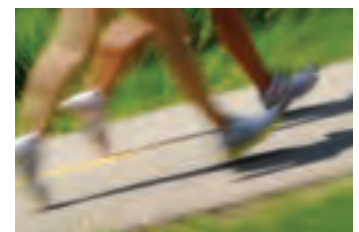

SHOPPING

Atlanta Happenings

Visit attend.atlanta.net/attend/hinman2020 to plan your trip!

Dental Dash at Dawn 5k, which helps raise funds for Dentistry for the Developmentally Disabled (DDD) Foundation’s nonprofit clinical service, will be held on Saturday, March 21 at 8 a.m. For more details visit dentaldash.org or contact Sheri Anderson at 404-942-0086, ext. 208.

GET THE HINMAN APP!

Manage your registration account on the go and access these features in real time:

- ✓ Course Room Locations
- ✓ Exhibitor Lists, Floor Plans & Show Specials
- ✓ Maps of the GWCC & Omni
- ✓ CE Verification (avoid the lines and email certificates to print from home)
- ✓ Add Courses & Special Events Onsite

New this year, “opt in” to making your profile visible the first time you log in to the App so friends and colleagues can see that you are attending. What better way to reconnect with old friends?

New this year! The Hinman Podcast Lounge

Booth 757

Listen in, subscribe and chat with the hosts while they record their episodes. Recharge your device and regroup after a busy day at the Meeting in this comfortable lounge. Be sure to bring your device charger to plug in, then sit back and take a break while you listen in to these popular dental podcasters:

How can I register?

Visit Hinman.org to register online or mail your registration form to:
The Thomas P. Hinman Dental Meeting
6840 Meadowridge Court
Alpharetta, Georgia 30005

How do I make a change on my registration form after mailing it in?

Call QMS, the Hinman registration service, at (866) 248-2883.

What if I have not received my registration packet, my badge was not included or my name was misspelled?

Call QMS, the Hinman registration service, at (866) 248-2883.

What is the cancellation policy?

Cancellations must be postmarked by Wednesday, March 18, 2020, and must be submitted in writing. In order for the refund request to be considered, include the attendee's name, the original registration badge and course ticket summary. No refunds will be issued for cancellations requested after registration opens on the first day of the meeting, Thursday, March 19, 2020. Please see page 63 for more information.

Does Hinman provide a Mothers' Room?

Mamava pods are located in the Georgia World Congress Center in Building A, Level 4 and Building B, Level 4. Mamava offers the combination of a freestanding lactation pod and a mobile app designed for on-the-go moms. The lactation suites are the perfect solution for busy public spaces such as convention centers. The self-contained, mobile pod includes comfortable benches, a fold-down table, an electrical outlet for plugging in a breast pump, and a door with a lock for privacy. These pods can be located and unlocked by utilizing the free user-friendly Mamava app and proprietary Bluetooth-enabled SmartLock. The Mamava app is available for download on the App Store (iOS) and Google Play (Android).

What are the Exhibit Hall hours?

Thursday, March 19	9:30 a.m. – 5 p.m.
Friday, March 20	9:30 a.m. – 6 p.m.
Saturday, March 21	9:30 a.m. – 3 p.m.

Will I have access to WiFi during the meeting?

Free WiFi will be provided in the Georgia World Congress Center courtesy of  eventsphere.

Where is the Hinman Dental Meeting held?

Georgia World Congress Center
285 Andrew Young International Blvd. N.W.
Atlanta, Georgia 30313-1591

Where can I find Hinman shuttle information?

To find out which hotels are located on the shuttle route, see page 66 of this book and look for the  symbol. Specific shuttle schedules will be posted in each participating hotel lobby. The routes will be available on the Hinman app and online at Hinman.org/Travel-Housing/Shuttle-Information.

How do I make hotel, airline and rental car reservations?

Visit Hinman.org for rates and travel discounts. See pages 66 – 67 for travel information.

Which MARTA stop do I use to get to the GWCC?

Exit at the GWCC/CNN stop on the East/West line. Call MARTA at (404) 848-5000 or visit itsmarta.com for detailed schedules. See page 66 for details.

How can I obtain CE certificates?

See page 64 for details.

What are the future dates of the Hinman Dental Meeting?

March 11 – 13, 2021
March 17 – 19, 2022
