President's Message

A Successful Hinman 2010 is in the Works

Brad Greenway
President

Our September membership meeting was a great success considering Atlanta was engulfed in a week's worth of rain that was reaching flood stage at that point. Hinman was true to form and had over 200 members registered for Dr. Blaas' lecture on "Pearls For Your Practice." Attendance was less due to the bad weather but I hope that Hinman members were not affected by the flooding around Atlanta.

As I write this article I am en route to the ADA meeting in Hawaii. The pilot said we just flew over the Golden Gate Bridge. I am glad he can see it better than I can. Some dedicated Hinman members will also be traveling to the meeting in an effort to scout for the best and most current speakers. Most of the scouting will be for future meetings since the program is set for the 2010 Hinman meeting. General Chairman Max Ferguson and I will be talking with the speakers on this year's program to learn any last minute details. A lot of effort goes into making our Hinman meeting the caliber of event that it has become. Speaking of the ADA, Hinman has always had deep ties with organized dentistry going back to when Dr. Hinman was President of the ADA. Our profession and the ADA are facing many challenges. Let's do our part for organized dentistry as well as our beloved Hinman organization.

As we prepare for the March meeting, we need to make sure everyone is assigned a duty. Our willingness as a membership to carry the load is what separates our meeting from any other dental meeting across the country. Please call the Hinman office if you have not been asked to serve on a committee. They will be glad to assist you with a committee assignment. Again, it takes every member to do his or her part to have such a successful meeting.

Please sign up for our membership meeting with Dr. Sam Low. He is speaking on current periodontal therapies for the general practitioner. Consider registering your hygienist to attend the meeting as well. I know it will be a great program and will help us to better serve our patients as dentists and dental teams.

Be sure to mark your calendar for our annual meeting at Callaway Gardens on June 11-13, 2010. Marvin Winter is planning a great event that is always fun for the entire family.

Sincerely,

Letter From Trustee Chairman Chip Mohme to Society President Brad Greenway

Dear Brad,

The Hinman Dental Society Board of Trustees is pleased to support the 2009 - 2010 activities of the Society in the subsidiaries listed below. The trustees will provide the society two payments: one in the fall to fund the Membership Meetings & General Office subsidies and one in July to fund the Annual Meeting. The trustees will cover the expenses for one hotel night stay (including taxes and resort fees) and the member registration fee for each member who attends the 2010 Annual Meeting.

Based on the policies of our Board of Trustees, this gift will be reviewed annually per a written request by the Hinman Dental Society.

The members are what make this organization great. We are pleased to be able to offer so many benefits to this outstanding group of individuals.

General Chairman's Letter

We're Finalizing the Details for the Best Hinman Ever

Max Ferguson
 General Chairman

As winter rapidly approaches, planning for the 2010 Hinman Dental Meeting is in its closing stages and the final details are falling into place.

Our Hinman staff and program chairmen Jim Bob Williamson and Billy Callahan have completed the program and we're now working on scheduling the 200+ seminars and participation workshops. New this year are three all day "mini-

residencies." We're calling these The Prevention Convention for Hygienists, Business Office Bonanza for Front Office Staff and Assisting Extravaganza for Chairside Assistants. Each of these features six 50-minute presentations showcasing the very best from the very best in their respective fields. We've worked hard on this and we're very excited about the new value-priced format.

I hope all of you have been on the Hinman Web site and already booked a hotel room for you and your staff. Our housing bureau, Ambassadors, has negotiated even more significant discounts at several downtown hotels so you need to act early as rooms are limited.

Our keynote speaker this year is Frank W. Abagnale, Jr. He is the real character portrayed by Leonardo DiCaprio in the 2002 Spielberg movie "Catch Me If You Can." Mr. Abagnale has worked for the FBI for the past 35 years and is considered to be the world's foremost experts on identity theft – and why not – he proved he was very good at it! I've seen this presentation and believe all of you will find it very entertaining and informative. Spread the word on our speaker and let's fill the auditorium.

If your name isn't printed on the committee list that appears in this issue of the *Preview Review*, then you need to contact the Hinman office at (404) 231-1663 as soon as possible. We want you to be part of Hinman 2010. It's not by design that a few good people get overlooked each year – it just happens and you can help us get you on the list. We need everyone to sign up for a committee assignment. Remember, you must fulfill your eight-hour meeting commitment and attend your committee meeting in order to secure an invitation to the General Chairman and President's Reception. We are going back to the Georgia Aquarium this year and all of you know what a great evening that will be.

We're under six months now and the next Best Hinman Ever will be here before we know it. Thank you for all you do for this great organization!

Max

10 Things You Didn't Know About Dr. Max Ferguson, Hinman's 2010 General Chairman

By KIM RYAN

As Dr. Max Ferguson shortens his days at his dental practice and lengthens his time in Hinman's offices, you know it's that time again. Preparations for Hinman 2010 are well underway with Dr. Ferguson leading the way. Many may know Dr. Ferguson, as he's been a Hinman Dental Society member since 1985. But, there are probably a few things you didn't know about him:

1. He is recognized as having the number one ranked Georgia Tech football game program collection in the country. He has every home and away game program since 1940. He's attended Georgia Tech games since he was eight years old. The irony? He received his undergraduate degree from Emory University, but even then, he wore gold and white, he says.
2. Dr. Ferguson retired from the active Army Reserve in 1995. He spent 277 days away from his practice and family during Desert Storm. He says it was a life-changing experience. He also said that GA Tech won the National Championship the year he was gone (1990-1991). "Wouldn't you know it?" he added.
3. In addition to Georgia Tech, Dr. Ferguson loves U.S. History. As an avid reader, he is most interested in U.S. Presidents and WWII, and probably is a force to be reckoned with on Trivia Night.

4. Dr. Ferguson has wanted to be a dentist since he was in the 3rd grade. His inspiration was his childhood dentist, Dr. Bill Rousseau. He was fascinated by the office and "neat words" his dentist used, as well as the chats they had about being a DDS during those early years.
5. Throughout all of his career, both military and private practice, Dr. Ferguson has been in a group or space-sharing arrangement. Five years ago, when he took over his entire space is really the first time he's been a solo, solo practitioner in his career. His general practice is located in Buckhead.
6. Dr. Ferguson and his wife Nancy have a home in Big Canoe, GA where they spend the majority of their weekends. Not fans of traffic and the long commute times in Atlanta, they also maintain a condominium in town not far from the practice.
7. Dr. Ferguson has two sons who didn't follow in their dad's footsteps. His son, John, and his wife, Elizabeth, have two-year-old twins, Jack and Caroline, who live in lower Manhattan where John is an investment banker at Deutsche Bank. His son, Andy, and his wife, Cara, have a five-year-old son, Max and an 8-month-old daughter, Catherine. Andy is a builder/developer in Franklin, TN., outside of Nashville.
8. Dr. Ferguson and Nancy lived in

Nancy and Max Ferguson

- Belgium for more than seven years when he was first in the service. Although they did a lot of traveling and sightseeing during those years, they still enjoy travelling. These days though, they mostly trek to Nashville and New York to see their young grandchildren.
9. Outside of work and travel, Dr. Ferguson enjoys golf, hunting and fishing. But, the past three years leading up to Hinman 2010 haven't allowed much time for his hobbies. And, he and Nancy admit that given the opportunity, they'd probably enjoy a quiet weekend at Big Canoe with nothing to do.
 10. Dr. Ferguson is a believer in making every single Hinman "The Best Hinman Ever," so he has built on the successful programs of the past and is introducing a few new ones this year. He won't rest and "put his feet up" in Big Canoe until every Hinman attendee agrees that Hinman 2010 was indeed the best. 🌸

Hinman Dental Society Membership Meeting Monday, November 23, 2009, at The Ritz-Carlton, Buckhead

Registration 3:30 to 4 p.m. • Lecture 4 to 6:45 p.m. • Business Meeting 6:45 to 7 p.m. • Cocktails 7 to 7:30 p.m. • Dinner 7:30 p.m. to 8:30 p.m.
Deadline for Registration is Wednesday, November 18, 2009

Current and Future Concepts in Managing Today's Periodontal Patient

Take the frustration out of periodontal therapy and replace traditional ineffective systems with protocols that create win-wins for both patients and clinicians. Periodontitis is the major contributor of tooth loss in dentistry. The practitioner can incorporate periodontal therapy into the overall treatment plan for quality comprehensive care. The seminar session will combine current research concepts with therapeutic techniques in a practice management format.

Course Benefits/Highlights:

- Enhance decisions on evaluating surgery versus non-surgery with controlling inflammation.

- Determining patient resistance/susceptibility patterns for predictable outcomes.
- Providing a "systems" approach to assessing prognosis for restorative abutments and when to extract with resulting implant therapy.
- Enhancing esthetic results by manipulating gingivae.
- The role of laser therapy in periodontics including crown lengthening.
- Establish programs with interactions between the dentist, hygienist and the periodontist.
- Creating true success by positive case acceptance and establishing long-term maintenance goals.

Samuel B. Low, D.D.S., M.S., M.Ed., Associate Dean and Professor, University of Florida, College of Dentistry;

Associate faculty member of the L.D. Pankey Institute in Key Biscayne, Florida with 30 years of private practice experience in periodontics and implant placement.
