KEYNOTE SESSION: *Dr. Bennet Omalu*

Thursday, March 22, 5:30 – 7 p.m. | GWCC, Sidney Marcus Auditorium

Join us for the official opening ceremony of the Hinman Dental Meeting! Doors and cash bar open at 5 p.m. with a musical prelude until 5:30 p.m. The Keynote Session introduces the Meeting's Clinicians and Keynote Speaker, Dr. Bennet Omalu.

As chronicled in the film *Concussion* (starring Will Smith) and in his book with the same title, Dr. Omalu's story is one of great triumph in the face of seemingly insurmountable odds. Born in 1968 in Eastern Nigeria during the civil war, his family lived as refugees, his town under constant fire by the Nigerian Air Force. Despite suffering war-related under-nutrition in the first two years of his life, Omalu would go on to attend medical school at age 15 and become a physician by age 21.

In 2002, Dr. Omalu made a career breakthrough when he became the first doctor to discover and identify chronic brain damage as a major factor in the deaths of some professional athletes. He called the disease Chronic Traumatic Encephalopathy (CTE), which he first discovered as the result of an autopsy he performed on Mike Webster—one of the best Centers in NFL history. He was also the first to discover CTE in military veterans diagnosed with PTSD, as well as professional wrestlers. But his findings were summarily dismissed—and even ridiculed—by his professional peers, the NFL and the sports industry.

Today, CTE has become generally accepted and Dr. Omalu's findings have revolutionized neuroscience, sports medicine and safety, the study of all types of brain trauma, and the entire sports industry.

In August, Dr. Omalu released another book entitled *Truth Doesn't Have a Side: My Alarming Discovery About the Danger of Contact Sports*. The book lays bare the truth about the disease—its causes and symptoms, how we might keep our children protected and how to guide professional athletes when CTE sets in. In 2016, Dr. Omalu was awarded the American Medical Association's Distinguished Service Award—the organization's highest honor.

All arrangements for the appearance of Dr. Bennet Omalu made through Greater Talent Network, Inc., New York, NY.

Dr. Marvin C. Goldstein Memorial Lecture

This session is sponsored by the Atlanta chapter of the Alpha Omega International Dental Fraternity in cooperation with the Thomas P. Hinman Dental Meeting. The Fraternity has dedicated this lectureship in memory of Dr. Marvin C. Goldstein.

Separate not thyself from the community ~ Ethics of the Fathers ~

DR. MARVIN C. GOLDSTEIN

Marvin C. Goldstein, D.D.S., F.A.C.D., F.I.C.D. was a product of his heritage and his faith. He was devoted to his profession and to his family—immediate and extended. A man of his community, he gave of himself unstintingly to help make it the best it could be. Marvin’s philosophy about doing good things, simply put, was “because it’s the right thing to do.”

But Marvin’s greatest passion was people. His community involvement knew no bounds. Civic leaders, regardless of faith, color, gender or political persuasion, turned to him as a man of courage and conviction. It was not only for financial help but also to seek his advice and counsel on subjects ranging from practicality to those of more esoteric nature.

Active in more than 20 dental organizations, he devoted 48 years as a volunteer to the Ben Massell Dental Clinic in Atlanta where he was Chief of Staff Emeritus at the time of his death. He served as President of no less than eight dental, civic, religious or volunteer organizations, was Chairman of the board of ten such activities and participated as a worker in countless other associations. In addition to being a Clinical Professor of Orthodontics at the Medical College of Georgia School of Dental Medicine, he presented more than 200 lectures in the U.S. and abroad and contributed extensively to the literature.

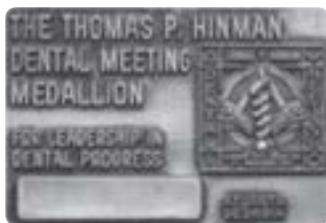

His plethora of activities make the point that one does what one wants to do and that time can be found to participate in total life-cycle experiences. Though realizing that many endeavors might not be completed, he knew he had to make the effort.

His efforts to assist students trying to enter schools of higher education and the professions are legend. Those concerns were outdone only by the friendship he offered as they traveled the road of life. And, yet, this plate he had been served—so full of doing and giving to and for others—always had special room for his devoted wife and helpmate, Rita, and their five children and their families.

Marvin Goldstein, whom we memorialize now and for the future, was truly “a man for all seasons”—a man for all reasons. Martin Buber, the great philosopher and theologian said, “God made no tools for himself; He needed none, for He created for Himself a partner.”

Such a partner was Marvin Goldstein. No more can— or need—be said.

These Dr. Marvin C. Goldstein Lectures, gifts to the Hinman Dental Meeting, are made possible by donations from members of the Atlanta Chapter of the Alpha Omega International Dental Fraternity, other Alpha Omega Fraters, friends and Dr. Goldstein’s family.

THE THOMAS P. HINMAN MEDALLION

The Thomas P. Hinman Medallion is considered to be one of the highest honors bestowed in dentistry. The Medallion is not only an honor to the recipient, but also an honor to the memory of the man for whom it was named.

Julian Harris, the late world-famous sculptor, is responsible for the Medallion being a work of art. Mr. Harris, whose creations are seen in leading museums and in public buildings and squares across the nation, did diligent research before designing the Medallion. The primary motif is the official insignia of dentistry. The Medallion also includes the motto of the Hinman Dental Society, “Magna Est Veritas Et Praevalebit” – “Great is the Truth and It Shall Prevail.”

In 1950, the posthumous awarding of the first Medallion to Dr. Thomas P. Hinman was most fitting. Dr. Hinman was a student, an educator and a private practitioner of international renown. He was also president of the National Dental Association, predecessor of the American Dental Association. His greatest contribution to dental education, however, was the founding of the Mid-Winter Clinic in 1913, now the Thomas P. Hinman Dental Meeting.

History of the THOMAS P. HINMAN DENTAL MEETING

The Thomas P. Hinman Dental Meeting is sponsored by the Hinman Dental Society, a non-profit organization. The first meeting was held in 1912 by Dr. Thomas P. Hinman was considered to be the first clinic strictly for serious-minded educational purposes. The meeting developed a reputation for devotion to detail and hospitality that continues to grow through the years with every meeting.

Born in 1870, Thomas Hinman graduated from Southern Dental College in Atlanta with his Doctor of Dental Surgery degree in 1891.

The first classes for the Atlanta Midwinter Clinic, later renamed the Hinman Dental Meeting, were initially limited to 40 dentists with strict focus on education. The attendee was honor-bound to return to his state dental society and present what he had learned in a formal program.

In 2017, more than 20,000 dental professionals participated in the 105th Thomas P. Hinman Dental Meeting at the Georgia World Congress Center and Omni Hotel at CNN Center. The exhibits program included representatives from nearly 400 companies occupying more than 800 booths.

Today, the focus is still on providing the best possible education, not only for dentists, but for the entire dental team as well. The program addresses the needs of general dentists, specialists, hygienists, assistants, office staff, lab techs and students.

The Hinman Dental Society today is comprised of 800 dentist members, primarily located in metropolitan Atlanta. The membership responsibilities include service during the meeting each year.

The excess revenue of the Meeting is invested and gifted in the form of scholarships to individuals and in contributions to institutions that foster dental education whether at the undergraduate or post-graduate level. In 2017, the Society provided more than \$800,000 in total giving.

SGS seminars are unique in that they are not a lab, they don't own a single appliance. Their expert instructors will teach the proper way to treat patients with sleep apnea and share the pros and cons of all the appliances so you'll leave with a wealth of knowledge and unbiased information. With a provided step by step protocol that details each appointment, it is their goal for every seminar attendee to be trained and prepared to begin treating sleep in their practice immediately!
